

Hi All,

An event is not made just by the ambience of the venue or the show on display. It is made by the time and effort put in by the ones behind the show. This is for them.

Starting with the wonderful compering duo of Kevin and Rakshith, it was a crisp and clean script executed well. You guys struck the right balance of class and humour and kept the show running within time.

The contest masters Ankita and Kynan, right from the coordination before the event, the briefing and the presentation, you were excellent. A special mention for the dedication of Kynan who didn't even let a broken hand stop him.

The timers Shilpi and Shashikanth, we conducted the entire conference in 4 hours flat. That alone suffices to describe the efficiency with which you guys worked.

Tally Counters Subramanyam, Savitha and Lakshya, you guys worked well in tandem with the chief judge and the judges.

Sergeant at arms Suraj, Akhila and Sakthi, you guys were amazing. Suraj kept the good in and the bad out very effectively, I must say. Sakthi, you are an asset. A well thought out approach to the stage, where every transition was handled effectively. Some of the contestants asked me to pass on their appreciation to you.

Registration & Hospitality team of Sreehitha and Shuja, we achieved the target number of registrations and collected the money for the same. Well organized, prompt and efficient. Sreehitha, you managed the finances of the conference very well. Also, a special thanks to Subramanyam for helping out with the registration too.

A special thanks to Ganesh Kamath from Intel, who stepped in and helped us out on the spot when he saw that we required a little assistance. It takes something special to do that spontaneously.

The Program chair Ranjani, you were efficient and effective. From the preparation to the follow up after the conference, you were one of the keystones of our success.

And of course Shuva Kar, you are a wonderful team mate and a meticulous planner. Every task which you took up was performed to perfection.

You guys were one of the best teams I have worked with, and I would work with every single one of you over and over again.

Toastmasters is all about creating leaders, with you guys I don't think they have to look any further. Thank you! Thank you! Thank you!

Regards,

Vignesh S
